

Howard Taylor, showing great skill on his bicycle, captured high-point honors at Torrance Park's Annual "On Wheels Day." Howard, beat fifteen other contestants by winning the speed race and the longest skid and finishing second in the slow race.

Mike Selford and Dennis Bonee each won one event. Mike won the fast race on his racing bike.

Dennis came in last in the slow race to win the event.

ATOP FLAGPOLE.

Name Third Competitor In Sitting Contest

Assuming more confidence and apparently more intellect than any of his predecessors, Hal Ingman, 25-year-old Redondo Beach painter, became the third "competitor" in the Twin Pontiac flagpole sitting contest, which the Twins hope will eventually result in a new world's record.

Present universal standard for sitters, a rather obscure sport which receives little of the limelight, (possibly because there are so few who have the aptitude) is 196 days. Ingman, however, has a different purpose than most for wanting to sit that long.

Man with a desire to get ahead, Ingman worked out an arrangement with the Pontiac Twins, Richard and Robert Greenwald, 505 Pacific Coast Highway, Hermosa Beach, whereby Ingman will receive a 4-year scholarship to college if he breaks the record.

Family man with a wife and a pair of paposes, (now that he's Chief High Trader) Hal also has one due in a couple of weeks. Married four years, Ingman claims his wife was all for the flagpole idea because of the college education.

Hal was deprived of a high school education in the formal sense but supplemented this void by being graduated from correspondence school, a tough trick in itself.

"Most of my time is spent writing and answering the phone, (FR-97119)," Ingman said, "but I also have quite a bit of time for reading. I'm writing mostly comedy right now and formulating ideas for further stories. I find it diffi-

cult to write because I'm used to writing and then pacing the floor and then sitting back down at the typewriter and writing some more. But it's a little more confining up here to my pacing. Mostly, though, I smoke to relieve the tension," Ingman added.

Asked about the food, he replied, "Red is really treating me right... the food's terrific." The food, by the way, is being supplied by Red's cafe directly across the street from the Pontiac agency.

Ingman also adds that he gets about seven hours sleep a day or night) and that he does exercising daily, pushups, sit-ups and the like, to keep in trim and keep from getting stiff. He said his wife keeps his clothing and laundry just as if he was living among civilization.

Hal also urged car buyers to give him a ring because "I want to make some money

Set Meeting In September

Le Lakeo Ives No. 7 of the Jesterettes will have their next meeting at the home of Frances Reiser, 1226 Crenshaw boulevard on Wednesday, September 14, at 6:30 p.m. Alice Ruppell will be co-hostess.

The last meeting was held at the home of Frae Prince, 28 Portuguese Bend road. A patio supper preceded the business meeting.

The members present were Frances Weston, co-hostess; Ann Atkinson, Alice Ruppell, Amanda Law, Ethel Peverly, Frances Peverly, Vivian Cook, Syble Moffett, and Frances Reiser.

Mumford Realty

The active real estate firm of today is one that meets the demands of conservative people of this advancing day and age where all are seeking investments that not only are increasing in value but where permanent income is assured. This firm is located at 2325 Torrance Blvd., phone, FA. 8-1049, and has been closely identified with this area in growth and expansion, offering both the buyer and selling public this highest type service. At present this firm has listed on its books town and country properties that could not fail to be attractive to anyone intending to purchase. They have been active in GI resales and financing in the vicinity. This community has learned that their word is their bond as they never list property above its true value. The people come to them with confidence for advice when they wish a medium through which they can dispose of or buy property as they have been decidedly fair at all times. We wish to recommend Mr. Mumford and his courteous staff to our readers in this business review.—Adv.

Longren . . .
 (Continued from Page 1)
 company has a backlog of orders totaling \$2 million.

Single Shop
 Organized in 1930 by A. K. Longren, the plant has grown from a single small work shop, into a sprawling, modern industrial organization of many departments and a wide diversity of products.

Currently, the firm is producing a variety of structural assembly parts for airplane manufacturers, and has a giant

contract for missile components with the Navy.

Complex jobs in stretched parts is a specialty of the firm. The machines necessary to stretch and form integral parts of aircraft are designed and built right at Longren. Principal metals used in production at Longren are stainless steel, titanium, and the aluminum alloys.

Profit-Sharing
 Longren is particularly proud of its employee relations. May pointed out that Longren actually has no employees. From the janitor to the president, everyone is a Longren associate, and each associate shares directly in the profits of the firm. Profit-sharing checks are distributed quarterly.

Longren is a recognized pioneer in developing metal-forming techniques. Many of the theories developed through experience at Longren are now accepted as standard, industry-wide production procedures.

Longren is proud of the role it has played in the growth and economy of Torrance. The firm looks forward to further growth right along with the "City of Progress."
